swimming pools

OVER
55
YEARS
IN WESTERN AUSTRALIA

PROUDLY LEADING THE INDUSTRY FOR
Over 55 Years

At Buccaneer Swimming Pools, we have held a long tradition of producing the finest quality pools available.

Starting business back in 1968, we are now one of Australia's most established swimming pool companies, and are proud to be celebrating over 55 years in WA!

As a supplier of a wide range of fibreglass pools built to Australian Standards, our commitment to providing the best lifestyle package and value for money to our customers is our top priority. Being a family-owned company we place a strong emphasis on durability, safety and innovation - so, we really know what it takes to create the perfect pool for your family.

Today, Buccaneer is one of Australia's leading pool designers and manufacturers.

AWARD-WINNING
Pools

We have achieved many milestones over the years and are extremely proud to have received numerous industry accolades through the prestigious Swimming Pool & Spa Association (SPASA) Awards of Excellence.

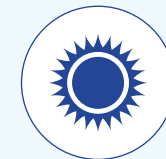

Amongst these awards are National Gold for Best Fibreglass Pool and Best Display Centre. We have also won numerous Gold awards at the state SPASA Awards of Excellence.

All of which allow us to say with confidence that our award-winning swimming pool designs will help transform your dream of a poolside lifestyle into a stunning reality.

The Buccaneer Advantage

SEVEN REASONS WHY YOU'D RATHER BE IN A BUCCANEER POOL

SUPERIOR PROTECTION Available with Pool ColourGuard® surface protection, which resists the effects of UV rays and chemicals. It's like sunscreen for your pool.

QUALITY ASSURED Certified to build to AS/NZS 1835:2021 ESR-4349-PMG-AU. We are measured and tested by an authorised, independent auditor. Anyone can say they build to the Standard. For your peace of mind always ask for a license number.

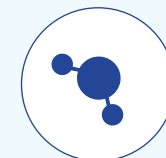

SUPERIOR STRENGTH Full-sized structural ribs, fully supported steps and bench seating and a wider edge beam mean the pool is independently structural and eliminates the need for secondary engineering works. Graphene nano technology infused in every pool makes our pools stronger than ever before.

SUPERIOR MATERIALS All pools are manufactured using new generation, high performance, corrosion resistant, eco-friendly fibreglass with improved strength and stiffness. Our onsite gelcoat manufacturing facility means daily batching of materials for a better product. Only specialty materials are used - no general purpose products.

LIFETIME WARRANTY Extended Lifetime Structural Warranty and Limited Lifetime Surface Warranty - our commitment to providing extended warranties above those standard in the SPASA contract.

ANTI-MICROBIAL PROTECTION Microtech Anti-Microbial Pool Protection guards the pool's surface against the growth of bacteria, making it exceptionally hygienic and safer for your family.

MADE IN WA All pools are individually made to order, to suit local conditions, at our metropolitan based manufacturing facility, the largest and most technologically advanced pool production premises in WA.

My Pool Design AR Experience

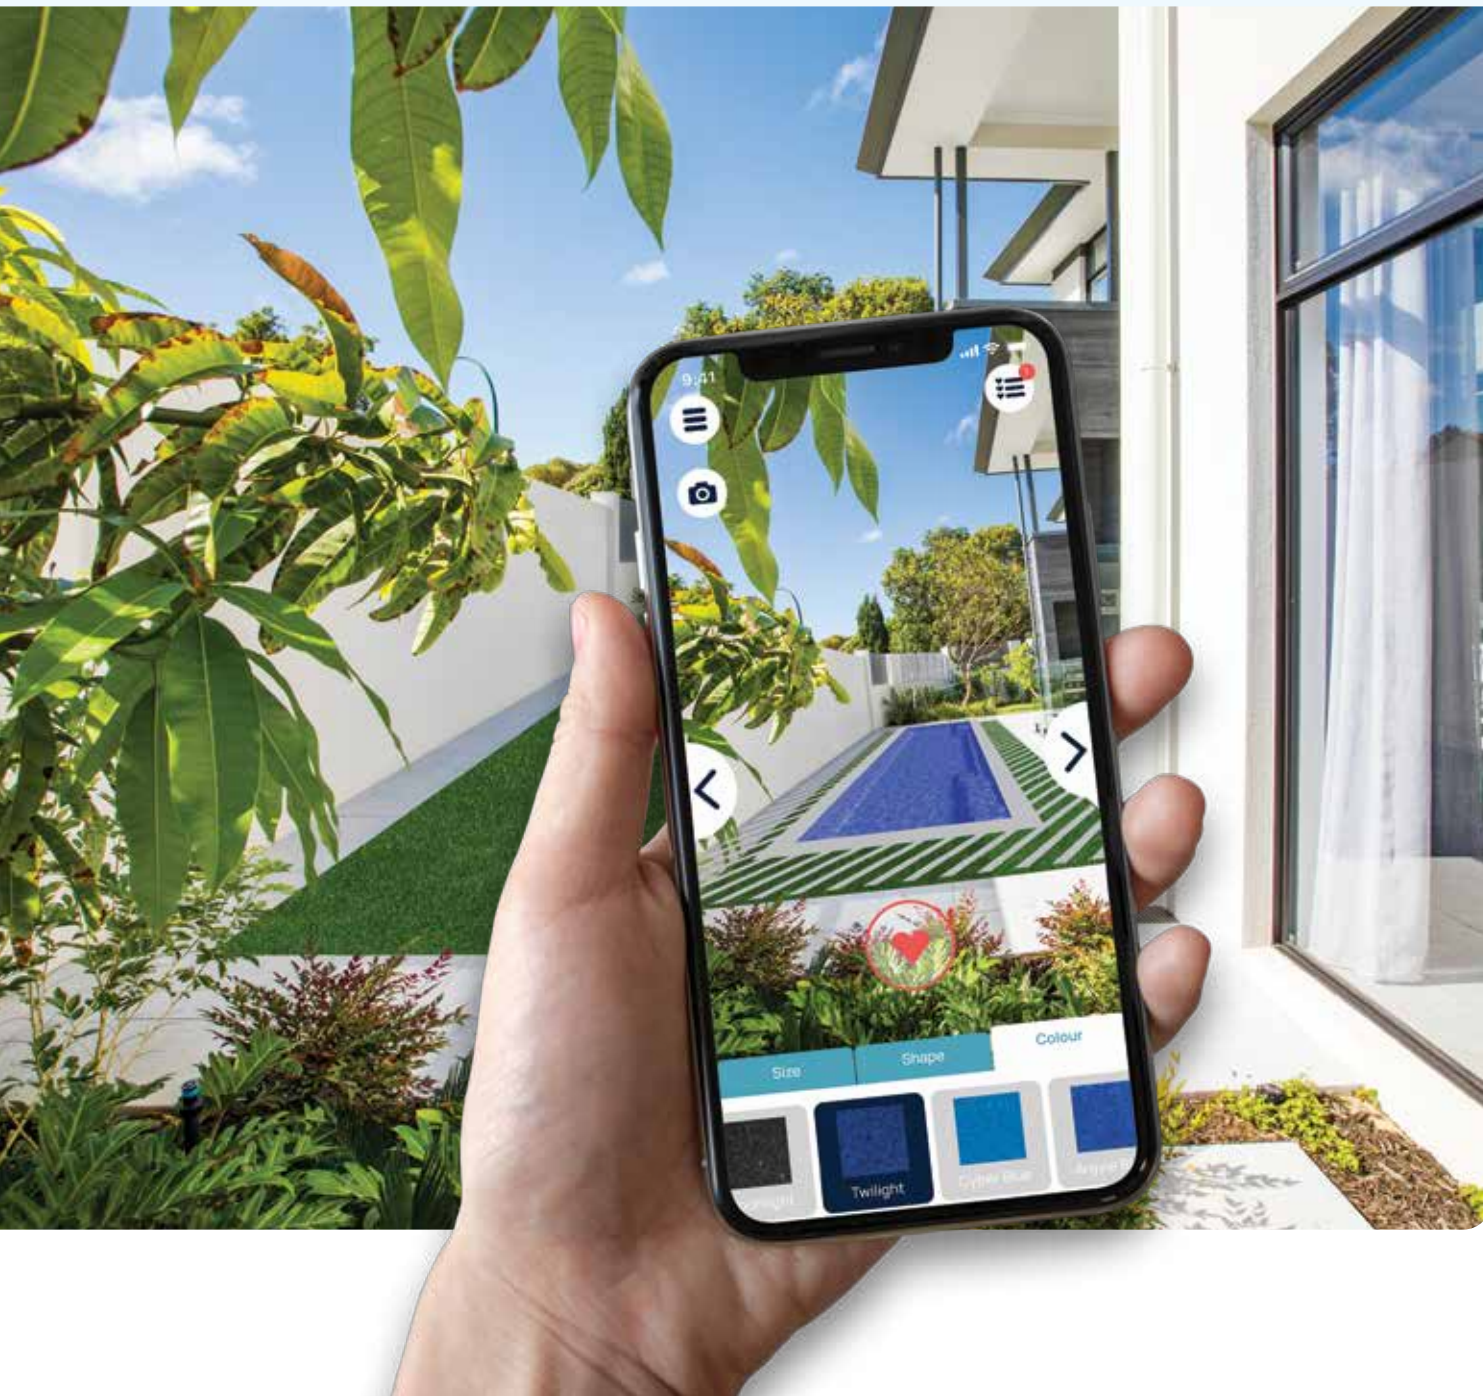

VISUALISE YOUR POOL IN YOUR OWN BACKYARD

Are you ready to create your dream poolside lifestyle but don't know which pool is best for your space? Try our easy-to-use AR app to view different pool designs and see which one is the perfect fit for your area, all while you are standing in your own backyard. Simply step outside with your phone and select the area you are ready to transform with your new pool. Use our app to view our range of designs and choose the shape, size and colour that best suits your area and lifestyle.

My Pool Design uses augmented reality to let you see your pool design in your actual space, helping you take the guesswork out of planning your dream pool. Simply download the free My Pool Design app and you can picture it instantly with our visualiser.

MY
POOL
DESIGN

Graphene Nano-Tech

ADVANCED SWIMMING POOL TECHNOLOGY

Graphene nano technology is the latest innovation in fibreglass swimming pools that is now available from Buccaneer Pools. It is incorporated into the composite layers of each pool using an advanced construction process that is the new generation of fibreglass pool technology.

Used in fibreglass swimming pools, graphene nano technology enhances the characteristics of the fibreglass laminates resulting in a pool that offers a whole new level of benefits, including:

- Increased strength and rigidity of the pool's structure – graphene is over 200 times stronger than steel and when added into our pools makes them our strongest ever.
- Higher flexural strength – especially beneficial in reactive soils.
- Stronger pools without added weight – graphene is exceptionally light so there is no added weight for transport or crane lifts.
- Higher resistance to water and moisture transpiration and chemicals – graphene provides an improved corrosion barrier and increases the laminate durability.

With this level of superior quality and outstanding benefits, why wouldn't you choose a Buccaneer pool?

BUCCANEER'S AWARD WINNING

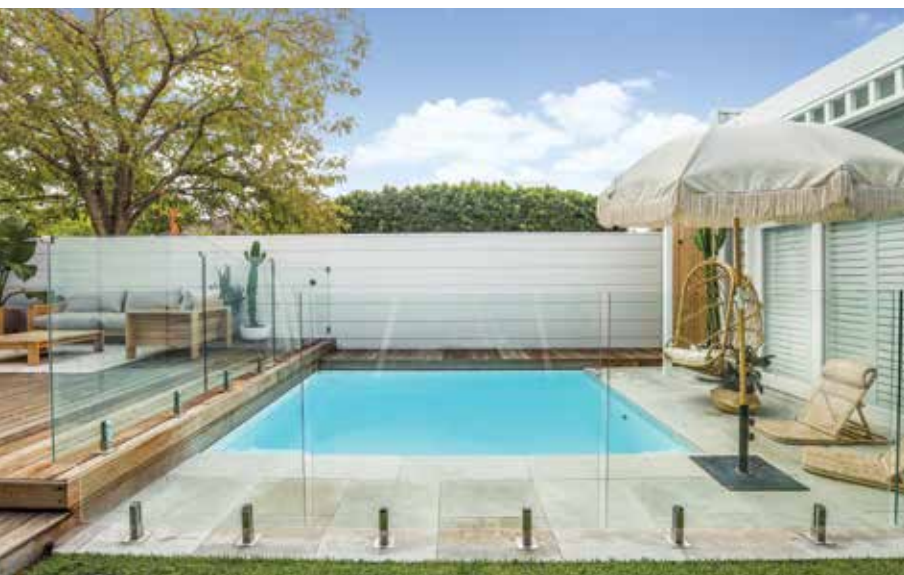

Pool Range

MALTA
L: 4m | W: 2m
D: 1.1m - 1.54m
